The Organization for the Harmonization of Business Law in Africa, known by its French acronym as OHADA, is a very important tool in case a commercial operator or a potential commercial operator wants to invest in the Democratic Republic of Congo [DRC] or in the OHADA Sub- region.

In the globalised world where borders are opened and in Democratic Republic of Congo [DRC] where there is the need for regional integration embracing many States so as to facilitate the sharing of experiences and the harmonization of rule and procedures; the YAV & ASSOCIATES Law Firm in its paramount goal to better secure the interest of its clients trains its Lawyers through seminars and workshops organized in the domain of Business Law.

The Organization for the Harmonization of Business Law in Africa, known by its French acronym as OHADA, is a very important tool in case a commercial operator or a potential commercial operator wants to invest in DRC or in the OHADA Sub- region. The OHADA Law's main aim is to promote economic integration and development by creating a secured legal framework for the conduct of business in DRC and in the sub-region. For instance, it (the OHADA law) has laid down easier procedures for the implantation of a foreign company in DRC.

Business is promoted and protected in DRC. On the one hand, the YAV & ASSOCIATES Law Firm facilitates commercial transactions, the leasing of commercial premises, the floating or promotion of commercial companies taking all its accounting and fiscal aspects into consideration. On the other hand, when the business is moving badly, the Law Firm can still provide you with a solution. Preventive measures, collective procedures of clearing debts, securities, simplified recovery procedures and even court actions are some of the measures used.

Taxation in commercial companies is not a domain to forget; therefore, we follow up companies so as to avoid adjustment of tax and also to obtain a better financial system.
